PLASTIC SURGERY

HOW WILL **BREAST
IMPLANTS** CHANGE
YOUR LIFE?

Making the decision to receive breast implants is a big one, and you might be concerned about how your life will alter following the operation. The surgery can most obviously increase the size of your breasts, but it can also increase the number of clothes you can wear and make certain types of apparel more comfortable.

Although many women get breast augmentation surgery to improve their physical appearance, there are also many emotional and psychological advantages to the process. For instance, breast augmentation may enhance your body image in addition to the obvious benefits of physical modifications. You may arrange a consultation with Dr Vigo to talk about the process, your candidature, and how your life could change afterward with a qualified cosmetic surgeon for additional information about breast augmentation and its outcomes.

PHYSICAL LIFE CHANGES AFTER A BREAST AUGMENTATION

Patients mostly remark a markedly more voluptuous, contoured, and perkier breast look following a breast augmentation. Some patients' body proportions become more balanced as a result of having larger breasts, which can assist draw attention to other regions like the body's form. In this way, ladies who have wider hips but a naturally tiny chest could benefit from breast augmentation surgery.

In addition, a skilled surgeon could help reduce a moderate amount of breast sagging by placing implants higher on the chest wall than natural breasts. Further, getting implants may assist individuals with restoring volume and reducing loose skin from aging or after pregnancy or weight fluctuations. However, it is critical to remember that breast implants do not stop the aging process, so newly enhanced breasts continue to age in the years after surgery.

PSYCHOLOGICAL AND EMOTIONAL BENEFITS

Since many women view their breasts as an essential component of femininity, having larger breasts may have positive psychological effects and enhance the quality of life for those individuals. For example, many women who get breast augmentation report improvements in their body image, confidence, and self-esteem following the treatment. Numerous individuals also claim an enhanced quality of life following a breast augmentation, indicating that the advantages are valuable.

Furthermore, people frequently experience benefits in both their personal and professional life when they have greater confidence. Sometimes a patient's increased self-esteem following breast augmentation serves as motivation for healthy lifestyle choices like consistent exercise and a well-balanced diet.

Though breast implants do not completely transform a patient's life, they could be a positive inspiration and step toward self-improvement. Notably, taking proactive steps for a healthier lifestyle may help individuals maintain their breast augmentation enhancements for longer periods.

LEARN MORE ABOUT HOW YOUR LIFE COULD CHANGE AFTER A BREAST AUGMENTATION

If you're worried about how having a breast augmentation will affect your life, research has indicated that there are a number of psychological and physical advantages. Patients who have had breast augmentations most noticeably have greater confidence, which enhances their social and professional connections. Some breast augmentation patients report higher quality of life as a result of their breasts seeming more prominent and young.

Get in touch with Dr. Vigo right now to find out more about how a breast augmentation treatment might transform your life.

A BRIEF NOTE FROM DR MATTEO VIGO

I decided to become a doctor at early age but I was not aware of the world of Plastic Surgery. Once I have discovered it I fell in love with the whole concept behind and how this field of Medicine can be helpful for many people.

I passionately believe that, in order to improve the physical aspect of a patient, the plastic surgeon needs to combine the principles of art and science, adopting a global approach to understanding the individual desires.

Plastic Surgery is a truly fascinating, dynamic, constantly evolving field of medicine and I believe that the role of a Cosmetic Surgeon is unique and highly privileged.

My main goal is to understand the needs of a patient and try to transform their desires into reality. The role of a plastic surgeon is not only merely surgical but also supportive in the decision process of the best treatment to help patients finding themselves and their wellbeing.

All these steps are taken into consideration once a person walks in my office and the service I am offering them is always at the top.

I am combining experience, quality and professionalism to evaluate each single case and offer the best solution for my patients.

"Because you deserve the best" is my motto and I want always to put the patient at the centre of what I am doing.

You have to feel pampered, understood, listened, loved once in my office and the feedback of this feelings from my patient is my best satisfaction.
